Education and Certificates

- Cisco Certified Network associate (Routing and Switching) - 6/2018-2021
- Manhattan Area Technical College (Associates of Information Networking Technology) - 8/2019

Projects

- Freelance IT work including:
  - Installing and configuring media servers and personal mass storage solutions
  - Home and small office networking
  - Basic computer builds, repairs, and support.
- As a student I reconfigured and rewired our department's networking hardware in one semester with minimal downtime and was able to demonstrate success in:
  - Setting up DMZ Networks for public-facing websites
  - Determination of redundancy requirements and implementation of a properly configured and tested redundant network
  - Configuration of VTP and VLANs to properly manage and segment networks
  - The physical wiring of a network closet
  - Configuring AAA on all network equipment and an Access Server

Technical skills

- **Windows**
  - Active Directory, Group Policy, DHCP, DNS, IIS, Remote Desktop Services, powershell

- **Linux**
  - Primarily Ubuntu: Apache, DHCP, DNS, Cups, NTP, Syslog, LDAP

- **Networking**
  - Primarily Cisco: OSPF, EIGRP, VLANs, VTP, STP, Ether-Channel, Port-Security, HSRP, VPNs, ACLs

- **Virtualization**
  - Primarily VMware: Datastores and iSCSI, Licensing, Virtual Networking, High Availability and Fault Tolerance

- **Security**
  - Cisco ASAs, Firewalls (Windows, Pfsense, Linux), SSL, policy, procedure
